In computer science, this term is typically associa

ted with proving a user's identity. Usually, a user

proves their identity by providing their credentials, that is, an agreed piece

of information shared between the user and the system.

What is Authentication? Definition and

uses - Auth0

intro-to-iam : what-is-authentication

ganha aposta ganha

Username/password authentication

Username and password are the most common form of authentication

. This is where a user enters their username and password into a login form, and

if the credentials match what is stored in the database, the user is granted ac

cess.
