What is Friv4school?

entertainment, with the support and guidance of parents, they can help children develop

can also help them develop perseverance to achieve goals, build resilience, and improve

All these Friv games can be played and enjoyed for free, without imitations.

money.

11-13 year olds may be better equipped to navigate the scary movie scene on some level but each child is different.

If your child watches something that they say is not scary to them but then starts coming to you at night wanting to sleep closer to you or is having nightmares let their behavior speak for them.

then starts coming to you at night wanting to sleep closer to you or is having nightmares let their behavior speak for them.

Your child asking to see a scary movie is another sign that they could be ready, but parents should approach it slowly, keeping in mind the child's age, developmental level and the rating, themes and other factors of the film. The key is to not overwhelm kids with fear, especially age-inappropriate fears.
