<p&gt;Not to be confused with Rock art&lt;/p&gt;

```
<p&gt;Art rock is a subgenre of rock music that generally reflects a challeng
ing or avant-garde approach to rock, or which makes use of modernist, experiment
al, or unconventional elements. Art rock aspires to elevate rock from entertainm
ent to an artistic statement, opting for a more experimental and conceptual outl
ook on music.[3] Influences may be drawn from genres such as experimental music,
avant-garde music, classical music, and jazz.[1]</p&gt;
<p&gt;Art Rock&#39;s music was created with the intention of listening and co
ntemplation rather than for dancing,[3] and is often distinguished by the use of
electronic effects and easy listening textures far removed from the propulsive
rhythms of early rock. The term may sometimes be used interchangeably with &quot
;progressive rock", though the latter is instead characterized in particula
r by its employment of classically trained instrumental technique and symphonic
textures.</p&gt;
<p&gt;The genre&#39;s greatest level of popularity was in the early 1970s thr
ough British artists. The music, as well as the theatrical nature of performance
s associated with the genre, was able to appeal to artistically inclined adolesc
ents and younger adults, especially due to its virtuosity and musical/lyrical co
mplexity.[3] Art rock is most associated with a certain period of rock music, be
ginning in 1966 67 and ending with the arrival of punk rock in the mid-1970s. Af
ter, the genre would be infused within later popular music genres of the 1970s
Os.[3]</p&gt;
