<p>A new extraction game mode, named DMZ, is also featured at the release of Warzone 2.0.[7] In💶 DMZ, players battle against both AI-controlled and player-controlled opponents while attempting to exfil with loot they found within the playable💶 area (also known as the Exclusion Zone). Players start out with a limited inventory, which allows storage of extracted loot💶 from matches; said inventory can be expanded by completing Faction missions, allowing for more guaranteed loadout weapon slots or the💶 opportunity to unlock base weapons and cosmetic rewards, usable in both Warzone 2.0 and Modern Warfare II.[8]</p>

<p>Urzikstan is a large-sized💶 map, and serves as the third main Battle Royale map, released with the launch of Modern Warfare III's first content💶 season. Urzikstan is also used as the main playable map for Modern Warfare III's Zombies mode. The map features 11💶 points of interest, with more connectivity between each point utilizing new mechanics such as horizontal ziplines and drive-able locomotive.[17] The💶 introduction of Urzikstan also adds new features and quality-of-life changes, such as movement updates from Modern Warfare III, new loadout💶 perks and intrinsic perks to improve gameplay pacing.</p>

<p>In August 2024, the leaders of the Urzikstan Liberation Force, Farah Karim and💶 Alex Keller, meet with Shadow Company Commander Phillip Graves, who had faked his death since his last encounter with Task💶 Force 141 in Mexico. Graves proposes an alliance between the Shadows and ULF in order to prevent an invasion in💶 Al Mazrah from the Konni Group. Later that month, Graves, under the command of General Shepherd, leads an assault on💶 the Konni-occupied Zaya Observatory in Al Mazrah as part of Operation: Rogue Arsenal. After destroying the observatory with missile launchers,💶 Shadow Company locates an underground weapons facility containing chemical weaponry and begin extracting gas canisters, but are forced to exfil💶 when the tunnels begin collapsing. However, per the orders of the Ultranationalist terrorist Vladimir Makarov, Konni operatives masquerading as Shadow💶 soldiers managed to infiltrate their ranks and hijack the planes carrying the gas shipment, rendering the operation a failure.</p>
