The gambler’s fallacy is the mistaken belief th

at past events can influence future events that are entirely independent of them

in reality. For example, ïthe gambler’s fallacy might cause some

one to believe that if a coin just landed on heads twice in a row, then it’s

due to land on tails on the next toss</div></div>

What Is the Gam

bler’s Fallacy? The gambler’s fallacy, also known as the Monte Carlo fal

lacy, ïoccurs when an individual erroneously believes that a certain

random event is less likely or more likely to happen based on the outcome of a p
