According to the acclaimed author, There are three levels of horror:

1. The Gross-Out.

2. Horror.

3. Scared (being horrified) at an awful realization of the deep

psychological unpleasantness.

While terror is more related to being anxious, and

scared (being horrified) at an awful realization of the deep

psychological unpleasantness, while terror is more related to being

scared (being horrified) at an awful realization of the deep

psychological unpleasantness.

While terror is more related to being anxious, and
