When used together, these medications can help treat scalp conditions such as seborrheic dermatitis, a common skin disorder that causes a red, itchy, and flaky scalp. The combination of sertaconazole nitrate and mometasone furoate can help alleviate symptoms such as itching, scaling, and redness.

It is important to follow the instructions provided by your healthcare provider when using these medications. Typically, the solution is applied directly to the scalp and massaged in gently. It may take several weeks of use to see improvement in symptoms.

As with any medication, sertaconazole nitrate and mometasone furoate topical solution can cause side effects. Common side effects may include stinging, burning, or irritation at the application site. If you experience more severe side effects, such as worsening symptoms or signs of a skin
