<p&gt;I thought the game and awesome! The screen effects really made the stor
y come to life. And it wasn t £ boring where you just want to skip it through a
nd move on, you really want to read it and see £ what was happening! But there
was only one problem, which caused me to delete the app. When you first open
the app, they ask for your age, one of the options is 18 and under. So I click t
hat and £ I start my first story. I really liked it! The story was well played
out and I laughed a little £ too. But the only problem was that the
                                                                              wa
s put in there at least once in each story. £ I think that is extremely disappo
inting that they would do that. If you click 18 and under, I expect the
ors of the app to eliminate all the
                                   F words
                                             and maybe more swears, I say this
because 18 and £ under does include 10 year old, and younger as well. I do not
think it is appropriate to add those £ types of swears into the younger categor
y. It is a bad influence on children and really dangerous when you expose them E
to that kind of language. So I think that they need to fix that immediately. It
  s ruined the app experience £ for me. If they update it, and eliminate the
                                                                            F
       from 18 and under category, I will gladly play £ it again.</p&gt;
<p&gt;Sincerely,&lt;/p&gt;
<p&gt;A disappointed player.&lt;/p&gt;
