Football corners predictions is one of the fairly ne

w tips offered by tipsters and by us. Some say it's luck

ng corners in a football game, but we at AFootballReport find in corners very pr

ofitable markets especially in live events

the game evolves. So how do we predict corners? Of course as any other football

prediction and corners are related to a number of pre-match and team f

actors. First of all we should see the type of game we're looking

for or the type of game we want to predict. Is it a game with a stro

ng favorite or just two equally strengthen teams that play. If it's a game w

ith a strong favorite probably we should pay attention to the corners

race predictions as strong favorites always keep the ball in possession more th

an the other teams and create more chances as they push forward almos

t during the whole game. Keep in mind in live events that if the scor

e is in favor of the favorite team then this team would not be so mot

ivated to create chances and would probably win less corners than in a draw even

t or from behind.

Second thing we should use when making our corners tips is t

o see the teams lineups and tactic for the upcoming game. Target tea

ms with more offensive tactics and teams that use wingers heavily in their attac

ks. For example, some good wingers for the home team could easily pro

duce more than 10-20 crosses in the penalty area which very often defenders clea

r in corners.

Corners in the late stage of the game are more likely to happen than in

the early minutes. Usually teams are very careful in the opening min

utes of a football game and they try to enter the game more passively.
