Goal

Goal

Goal; a term used in football to describe

the number of goals scored in an hour during part of a

period.

In football, the total number of goals is an important

metric. It is calculated by summing the number of goals

scored by players and time during part of a season.

Example of use

For example, if a team scored 10 goals in an hour

part of the total number of goals would be 50 goals in

an hour. The total number of goals would be 50.

Importance of the total number of goals

Goals generally vary from US\$ 300 to US\$ 5,000, with the

majority of limits between US\$ 500 and US\$

3,500. The individual withdrawal limit is generally

redefined the following day.
